St Mary's College is proud to have the
World Class Schools Quality Mark

Are you considering a future career in teaching?

Mathematics / Physics / STEM
undergraduates have the opportunity to
get paid £1200 this June/July on the
Department for Education Internship
scheme to learn about teaching in one of
Britain's top comprehensives:

St Mary's College, Hull

Try Teaching

There has never been a better time to consider a career as a teacher of Mathematics or Physics. The Department of Education is offering STEM undergraduates the chance to apply for a 4-week-long paid internship to find out first-hand what a varied and exciting career teaching can offer.

St Mary's College, Hull

Paid internship placements are being offered by St Mary's College for June/July. As an outstanding co-educational 11-19 Catholic comprehensive with a vibrant Sixth form and strong commitment to high performance in sport, there could be no better place to find out whether teaching is the career for you.

"The four weeks were very busy and I loved every minute of it. I am very grateful for this opportunity and would encourage anyone who is considering any career in education to try it out."

- Chris [Mathematics intern]

"This was an intensive and well-structured course, at a brilliant school with supportive staff. Training sessions were provided on a whole range of topics and weekly mentoring sessions helped me to make the most of my time. I'm glad my first secondary school teaching experience was in a school of such high quality and I'd thoroughly recommend it to everyone."

- Sehaj [Physics intern]

Interns with their course tutors

Valuable training

Training seminars will be led by experienced teachers to help you learn from your experiences. Q&A sessions with a range of school staff in central and senior leadership positions will help you explore the different career paths that teaching can provide.

Memorable experiences

During your placement you will have the opportunity to gain wider school experience by visiting our partner primary and secondary schools.

You will also be involved in a range of extra-curricular activities, such as our Arts festival, Teamwork Challenge Day, International week and Transition week.
